14,493 Volusia and Flagler Residents Served with COVID-19 Relief Funding

Childcare - **3,603** people served
 Food Assistance - **10,571** people served
 Rent/Mortgage/Utilities - **319** people served

■ Childcare ■ Food Assistance ■ Rent/Mortgage/Utilities

STORIES OF IMPACT

COVID-19 Relief Grant at work: COVID-19 has taken a heavy toll on many families in our community and families served by the Boys & Girls Club (BGC) are no exception. BGC staff check in weekly with families to determine their needs and support them during this time. In April, staff called a single mother, Joyce, who works in a medical office. They immediately noticed the concern and stress in her voice and asked more questions. Joyce admitted her fears of bringing home the virus to her children, the added stress of homeschooling, and the uncertainty of COVID." BGC staff jumped into action and through generous donations were able to provide her with food and Easter treats for her children. Once she received her care package, she immediately called to thank the staff for their generosity. Even during this uncertain time, BGC staff is committed to serving their families and creatively meeting their needs

Three years ago, after an ugly divorce, Danielle was in a bad place. She started seeing a man who ran with a rough crowd, where Hepatitis (HEP) C, using pills and injecting intravenous drugs ran rampant. Ron introduced her to all three, and drugs became part of her lifestyle for the next two years. On occasion, they would share syringes or attempt to reuse them. Ron assured her that cleaning them with rubbing alcohol was "good enough." Later, Danielle learned that was not the case. After a freak accident that left her in a wheelchair, struggling to walk, Danielle learned she contracted HEP C. After being discharged, she moved to Florida with the intent of getting her life back together; she enrolled in physical therapy and found the HEP C treatment program with the Flagler Department of Health. At 53, Danielle is grateful for her new start in life. "I'm grateful I found Dr. Bickel and the Flagler County Department of Health," she said. "The HEP C treatment program is amazing, and it's made a huge difference for me. I don't know where I would be without it. They say that what doesn't kill you makes you stronger. After losing all my material things, this program gave me a chance to live again. I've been clean and sober for a while and I'm in a relationship with a good man. Sometimes it takes losing everything to get what you need the most... What I needed was a future. I have one now and couldn't be happier."

JOIN THE FIGHT

We know that many individuals and families have been negatively impacted by COVID-19. If you, or someone you know, is struggling, please call **211** to get connected to community resources that can assist you.
